

Massage Insurance Questionnaire

Cyndislight is set up to utilize direct payment from insurance companies. This is done as a service to my clients. It is important that you understand that insurance policies are an arrangement between you and your insurance company. This form was designed to help you navigate that relationship with regards to massage therapy. You are personally responsible for all charges incurred for services rendered. Payment in full is expected at the time of service until your insurance coverage has been verified.

Before you call your insurance company, you will need your insurance card ready with the subscriber's social security number and birth date.
